P-360 Pin and Tab Insertion Machine

**Over 40 Years of
Commitment
to Innovation.**

PCB Size 420x360mm (16.5"x14.2")

Pins and tabs can be inserted at any rotation

Pin detection to confirm every insertion

Force Monitoring

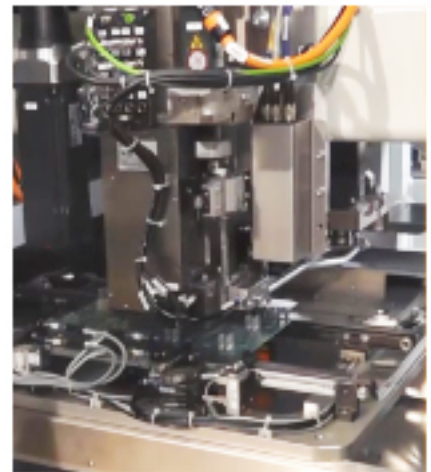

Vision system for accuracy and repeatability

Ready for traceability

Insertion force up to 900N

Fully Servo Driven

The P-360 is designed and engineered for high-volume production, as well as being able to change-over in under 10 minutes to completely different products. With insertion rates at five per second and options to upgrade to triple simultaneous insertions pushing that number potentially to 15 insertions per second while any rotation within +/-90 degrees not affecting the speed the P-360 is able to quickly and repeatably insert pins and tabs.

Innovation and investment keeps Hi-Tech at the cutting edge of technology and helps maintain our position as an industry leader.
